HAIR Enhancements

Diana Saulez is a respected beauty consultant and hair care professional with more than thirty five years in the industry. Her expertise in hair colouring and design as well as in the therapeutic treatment of hair and scalp, make her ideally suited to provide private consultation in the selection and grooming of high-quality designer wigs and hair extensions for all occasions. She is delighted to introduce this service and a Rene Furterer line of products to the community.

Fashionable & Fabulous

Soleil Salon & Spa

Hair Enhancements provides a wide selection of products from Raquel Welch, Eva Gabor and other top manufacturers. Available in both synthetic modacrylic fiber models and real human hair, there are affordable options that don't compromise quality and comfort.

With recent advancements in the industry, The Raquel Welch Line offers a NEW heat friendly fiber that makes it possible to flat iron, curl or blow dry every wig in The Raquel Freeform Collection. Maintenance is as easy as caring for your fine washables.

Experiment with beautiful results, try hair extensions.

One of the latest fashion trends is the use of high quality hair extensions. They're ideal for adding instant length, highlights or fullness to any style. Available in different lengths, extensions clip undetectably into your hair to provide instant, dazzling results.

Looking good can help you feel better

“As a hair care professional, it has been my privilege to assist clients facing hair loss due to medical challenges so I understand how important it is to look good at this critical time. By helping you choose a wig that’s right for you and customizing it to your face and personal style, I can help you maintain your attractiveness and dignity as you journey.”

Diana Saulez

We specialize in complete treatment programs for gradual and reactional hair loss. Rene Furterer also has a line of products designed with chemotherapy patients in mind that will soothe and treat sensitive and irritated scalps.

Here are some questions I'm frequently asked about wigs...

● **Can people tell that I'm wearing one?**

Because of their lighter construction and better materials, today's wigs are virtually indistinguishable from a natural head of hair. Even synthetic wigs are as soft and pliable as real hair for a gentle move-as-you-move action.

● **Is it uncomfortable?**

In the past, wigs were made with caps, which were hot and sticky. Today's wigs have lengths of fibers or wefts sewn to cotton or lace stretch bands which shape to the head yet allow for plenty of ventilation and added lightness. Many wigs weigh less than 2 ½ ounces and most have a comfortable lining along the front rim to prevent rubbing.

● **Will it come off?**

A properly fitted wig will not slip. Most good wigs feature Velcro™ adjustments that can be tightened or loosened for a proper and comfortable fit. Others are offered in a range of sizes. Ear tabs at the temples and extensions at the nape gently shape to the head, helping to keep the wig centered and secure.

● **What colour and style should I choose?**

Most people look best with their colour so if hair loss is a possibility in the future, save a swatch of your hair for a match and bring a photograph of yourself to your private consultation session. Although you may want to select a shade lighter than your natural colour, avoid going darker because it may cause you to look more tired than usual. Choose a style most similar to the one you usually wear-one that suits your personality and lifestyle.
